To My Love My Best Friend

With you by my side everything in this world seemed better
Good things were twice as much fun because when I shared them with you I got to see you smile
Bad things were only half as bad because I knew I could count on you to help me through them
With you at my side I knew I had someone who saw life a lot like I do
Someone who shared the same values and dreamt the same dreams
I know that I had someone who understood the parts of me that others don't even know exist.
Love Monique

Thank you for all the laughs and loads of love...
Thank you for the time and family values that you instilled in each and every one of us.
Thanks for your constant showering of advice and guidance to stay on track... and most of all thank you for being the greatest dad, grandfather, uncle, brother, cousin and friends anyone could ask for...
Until we meet again our loving father
Your children
P.S. Love You Poppa

*To My Beloved Brother William
God saw you were getting weary
So He did what he thought best
He came and stood beside you
And whispered come and rest
Sleep William take your rest
We all loved you but God loves you best*

RIP My Brother RIP

*William To Donna
You are worrying about the wrong thing Dee
You are worrying about the wrong thing (LOL)*

*To Our Uncle William
Words will never describe, how much our Uncle William means to us. Uncle William was the sun in our life, when the skies were gray. Uncle William always had our back. Uncle William always lit up a room with his smile. He was funny and loveable like no other. Uncle William was giving in all ways, and a Hero to us, because he never let us down. Uncle William was free spirited, and moved to the beat of his own drum which he also loved to play. Uncle William was spontaneous and no one can never take the place of him. Funny is what he was because if you ever needed a ride from Uncle William and wasn't ready Uncle William words were "The Bus Is Leaving". Uncle William was real and one of a kind.*

*We Love you Uncle William
Love your nieces/nephews*
