## Acknowledgement

Oh Lord, we have lived this day to bury one we love. Our gratitude is as full as our grief, and our peace is as our pain - all because of you. We need you as never before, to Shepherd our souls through these dry and heavy days. You send us to this earth for a season, and then you receive us again unto yourself. We understand this cycle, but we weren't quite as ready to let go of this one as we thought we would be. All our lives we have known that someday this would happen, but the finality and reality of it is piercing. One thing we know that death cannot kill love and human hands can't bury it. On this, our loved ones resurrection day we give you praise for a life lived well.
