

Footprints

One night a man dreamed a dream - he was walking along the beach with the Lord. Across the sky flashed scenes from his life. For each scene he noticed two sets of footprints in the sand, one belonging to him and the other to the Lord. When the last scene of his life flashed before him, he looked back at the footprints in the sand. He noticed that many times along the path, especially during the most difficult moments, there was only one set of footprints. This really troubled him, so he asked the Lord about it. "Lord, you said once I decided to follow you, you would walk with me all the way - but I noticed that during the most troublesome times of my life, there is only one set of footprints. I don't understand why, when I needed You the most, You would leave me."

The Lord whispered his reply "My precious child, I love you and would never leave you.

During your times of trial and testing, when you see only one set of footprints, it was then that I carried you."
